Various on-the-job training locations – Netherlands

Certificate

Once you have completed the course, you will receive an 'International Course Cherry Cultivation' certificate from Fruit Tech Campus, with content coordinated by Ronald Vermeulen - RVFC.

Who is this course for

This course has been developed specifically for entrepreneurs in fruit growing, people taking over a business and (future) employees of fruit-growing businesses who are interested in growing cherries or want to start doing so. The course is suitable for both beginner and advanced growers and farm workers.

On top of that, the course is also suitable for professionals at trading, supply chain and quality assurance organisations, technical companies and advisors and trainers.
